

Sunbeam Wireless Plans

Our Sunbeam Wireless data plans are designed to give you the ability to choose how much you pay for wireless service. All mandatory fixed costs are included in a base monthly rate, and then whatever voice or data is actually consumed is added to this base rate. If you don't use your phone much, you don't pay much. If you use your phone a lot, then you pay more. The choice is yours.

Phone Plans

	Cost
Basic Monthly Rate	\$12.85
Voice Calling Usage Rate (plus base rate)	1.1¢/min.
MMS Usage Rate (plus base rate)	1.1¢ ea.
SMS Usage Rate (plus base rate)11¢ ea.

Data-Only 4GB Plan (1.514¢/MB if over 4GB)	\$53.01

Usage Examples

I'm interested in the Sunbeam Wireless plans, but how much will I actually spend each month? Here are some examples to give you an idea of what your cost might be.

I have the Sunbeam F1 (or similar feature phone) and mostly use my phone for text messaging. I hardly talk on my phone.

\$18 per month.

I have the Sunbeam F1 (or similar feature phone) and I don't really text with it. I use the phone for a limited amount of talking.

\$20 per month.

I have the Sunbeam F1 (or similar feature phone) and I send some text messages. I mostly use the phone for talking, spending about an hour per day on phone calls.

\$30 per month.

I have a smartphone but am careful to only use data when on WiFi and mostly use my phone for text messaging. I hardly talk on my phone.

\$20 per month.

I have a smartphone and allow it to use 4G data. I talk on the phone some, but not very much. I do take a lot of photos and keep my phone data backed up online.

\$28 per month.

I mostly use my phone for talking, spending about 3 hours per day on phone calls.

\$75 per month.

I have a smartphone and use a lot of 4G data every month streaming videos and other content.

\$100 per month.
